

## PROJECT 1: THE LABORATORIES IN THE IES LOS MANANTIALES

We visit the Science Laboratories in the IES los Manantiales.

Pay attention to the teacher explanations and complete the following questions:

- What is a Laboratory?
- Where are the Laboratories in the IES los Manantiales?
- What Laboratory have you visited?

Many of the materials in a laboratory can be dangerous, so we need to follow safety rules to work there.

- Make a list of rules for using instruments and products.
  - In the laboratory there is a lot of specific equipment and instruments. Find out about these laboratory instruments. Draw them and write they are used for.
- |                  |                    |          |
|------------------|--------------------|----------|
| test tube        | termometers        | lab coat |
| beaker           | scales             | gloves   |
| petri dish       | flask              | goggles  |
